

NEW INNOVATIVE INFLEX DOWEL LIFTS

Why Casali dowel lifts with INFLEX® inserts are a must for those working on heels, as well as those wearing them.

Casali dowel lifts with INFLEX® inserts are available in both the **single-layer** and the **double-layer** versions, created to be mounted on heels with **full-metal pins**.

Why **DOUBLE LAYER** is a must for those working on the shoes.

After years of research Casali has found the perfect combination between the soft part of the dowel lift which comes into contact with the ground, and the rigid part which envelopes the pin. As a result, Double Layer boasts a number of mounting advantages.

Double Layer Inflex® 50 pair per box

Code	Pin Height	Colour	Size
1547100+	Regular Pin	Black	6,8,10,12
1547101+	15.3 mm	Oak	6,8,10
1547110+	Short Pin	Black	6,8,10,12
1547111+	10.5 mm	Oak	6,8,10,12
1547120+	Thin Pin	Black	6,8,10,12
1547121+	12.5 mm	Oak	6,8,10,12

Single Layer Inflex® 50 pair per box

Code	Pin Height	Colour	Size
1547050+	Regular Pin	Black	6,8,10,12
154705108	15.3 mm	Oak	8
1547060+	Short Pin	Black	6,8,10,12
154706108	10.5 mm	Oak	8
1547070+	Thin Pin	Black	6,8,10,12
154707108	12.5 mm	Oak	8

Where and in what type of heels are they used

The special insert is used for tall, stiletto high heels featuring metal non-elastic internal support pins, which are more robust and prevent heel breakage. Casali dowel lifts insert perfectly into the internal support pin, guaranteeing heel solidity.

Characteristics

the capacity to **perfectly adapt** to the internal component of the metal heel support.

Easily replaced

Specifically designed for very high stiletto heels which use non-elastic pins.

The black pin covers protect light colored shoe lifts from UV rays.

Durable, state-of-the-art Casali single and double-layer dowel lifts, combined with high-tech INFLEX® inserts for the absolute best heel support performance.

A unique technological breakthrough.

Not only making the heels more robust and less prone to breakage, but also making substitution simpler and quicker.

No glue needed.

100% Made in Italy.

Silent

the part of the dowel lift that touches the ground is softer than a normal mono-component dowel lift and this allows for a silent walk.

Grip

Perfect adherence to the ground which means no slipping.

X-Ray Quality Control Performed on the product line to check for the presence of air bubbles which could conceivably become noticeable after mounting.

*All volume prices are based on same size and colour except volume assorted prices: same group. Prices subject to change without notice. Standard shipping terms apply.
